

# V.A. Kiosque Of Arrows 2

Compiled by Tolouse Low Trax

CD / LP / digital / August 20<sup>th</sup> 2021

It gives us immense pleasure to present this very special release: "Kiosque Of Arrows 2" is Detlef Weinrich's (a.k.a. Tolouse Low Trax) first compilation for Bureau B.

Echoing the spirit of the legendary samplers found on Les Disques Du Crépuscule or Made To Measure, this hybrid journal not only collates unusual pieces of music - rare and undiscovered pearls from the experimental underground of the early 1980s through to contemporary unreleased recordings - it also represents a reflective collage of cut-ups, observations and memories in the neverending search for inexplicable beauty.

Eleven tracks of unique pop fusions meander through states of casualness, a nocturnal thirst for adventure, and the intense yearnings of hot, sultry afternoons with an uneven and brittle quality. It all helps to pinpoint Tolouse Low Trax as artist and curator in the grander scheme of things, whilst evoking the spirit of countless nights at the Düsseldorfer Salon des Amateurs.
